NotebookLM Hacks Every Researcher Needs to Know

Make your research
smarter with AI

www.educatorstechnology.com

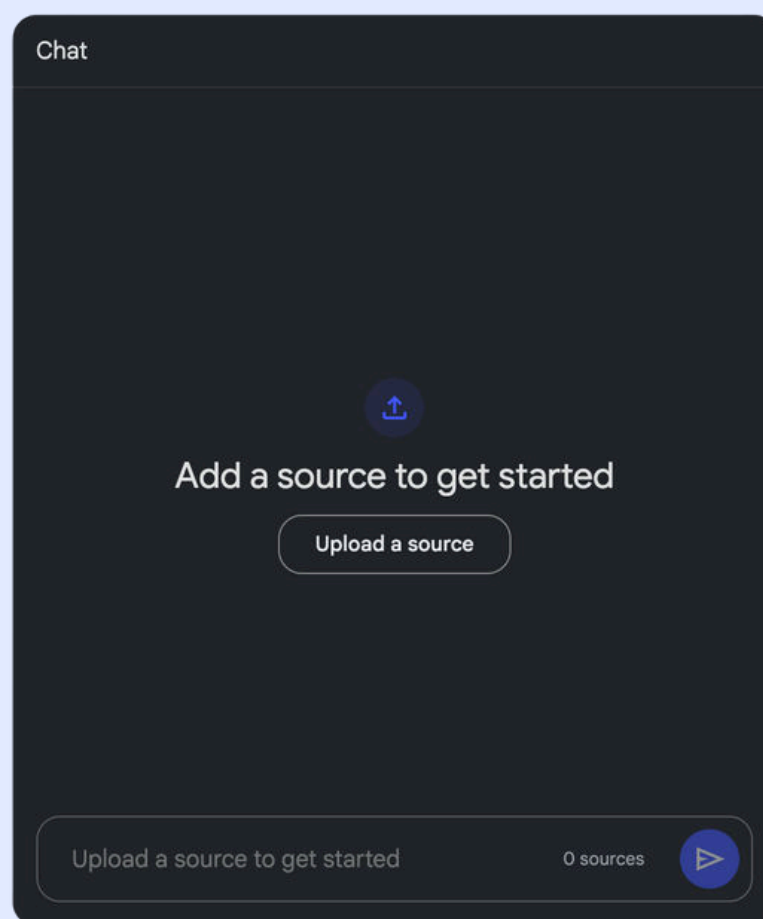

Tip #1

Start Organized

- Create a notebook for each research topic.
- Name it clearly (e.g., "Climate Change Sources").

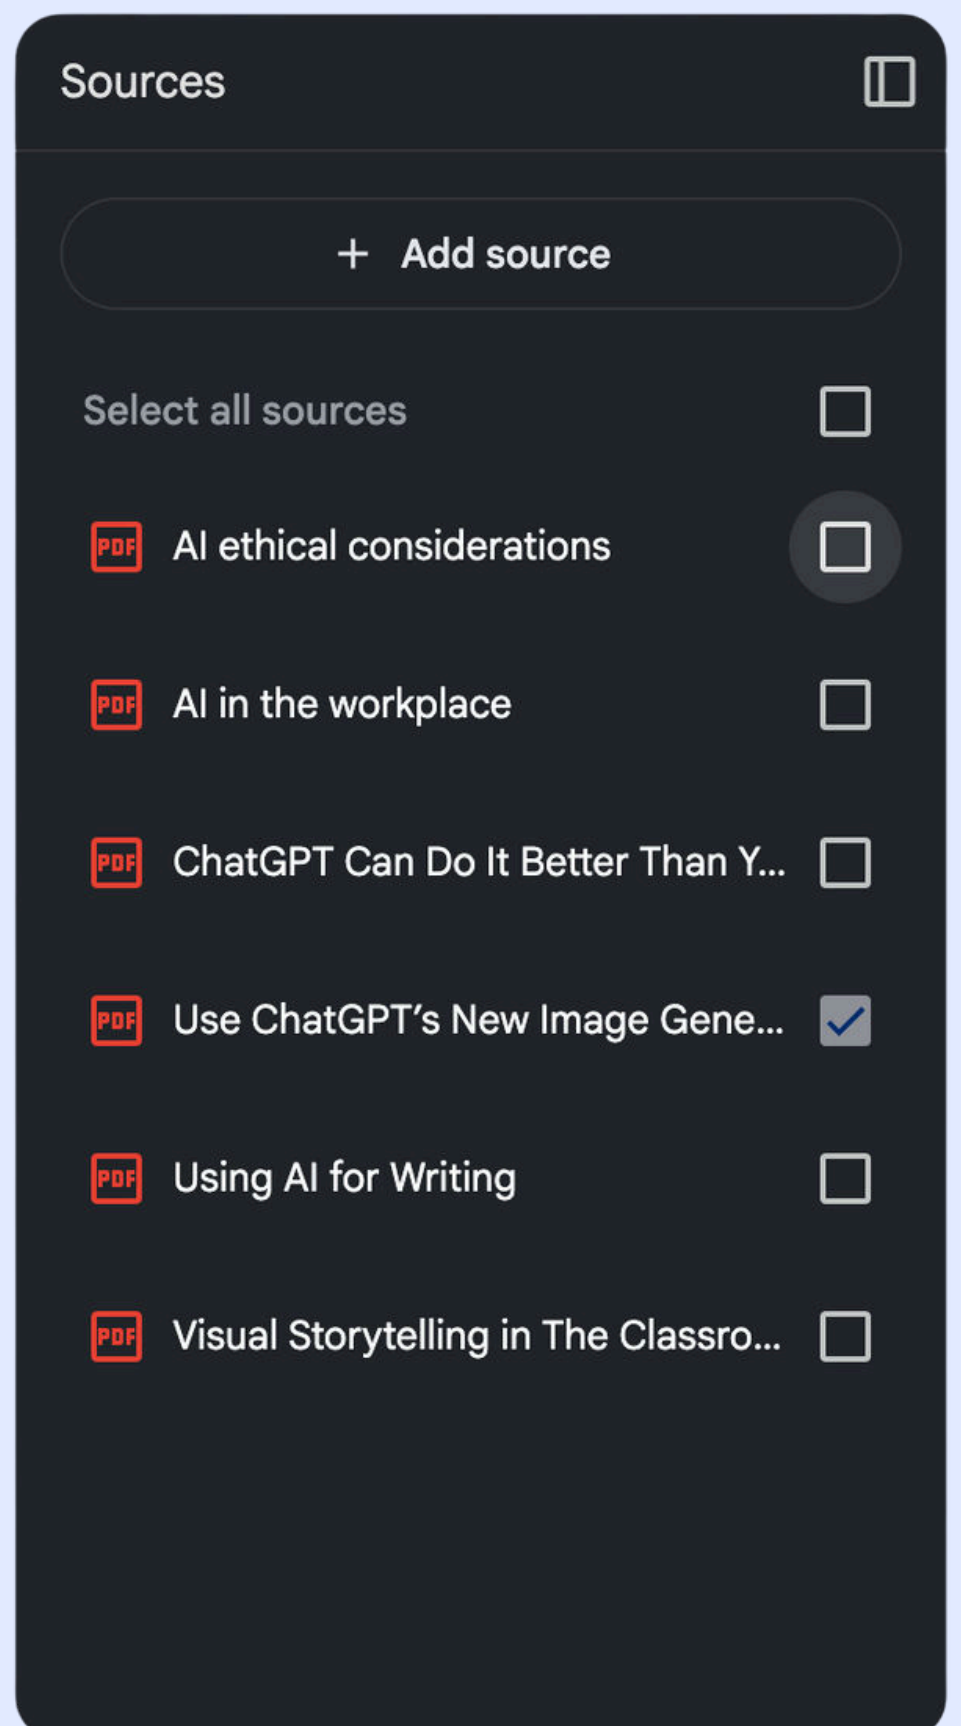

Tip #2

Quality Over Quantity

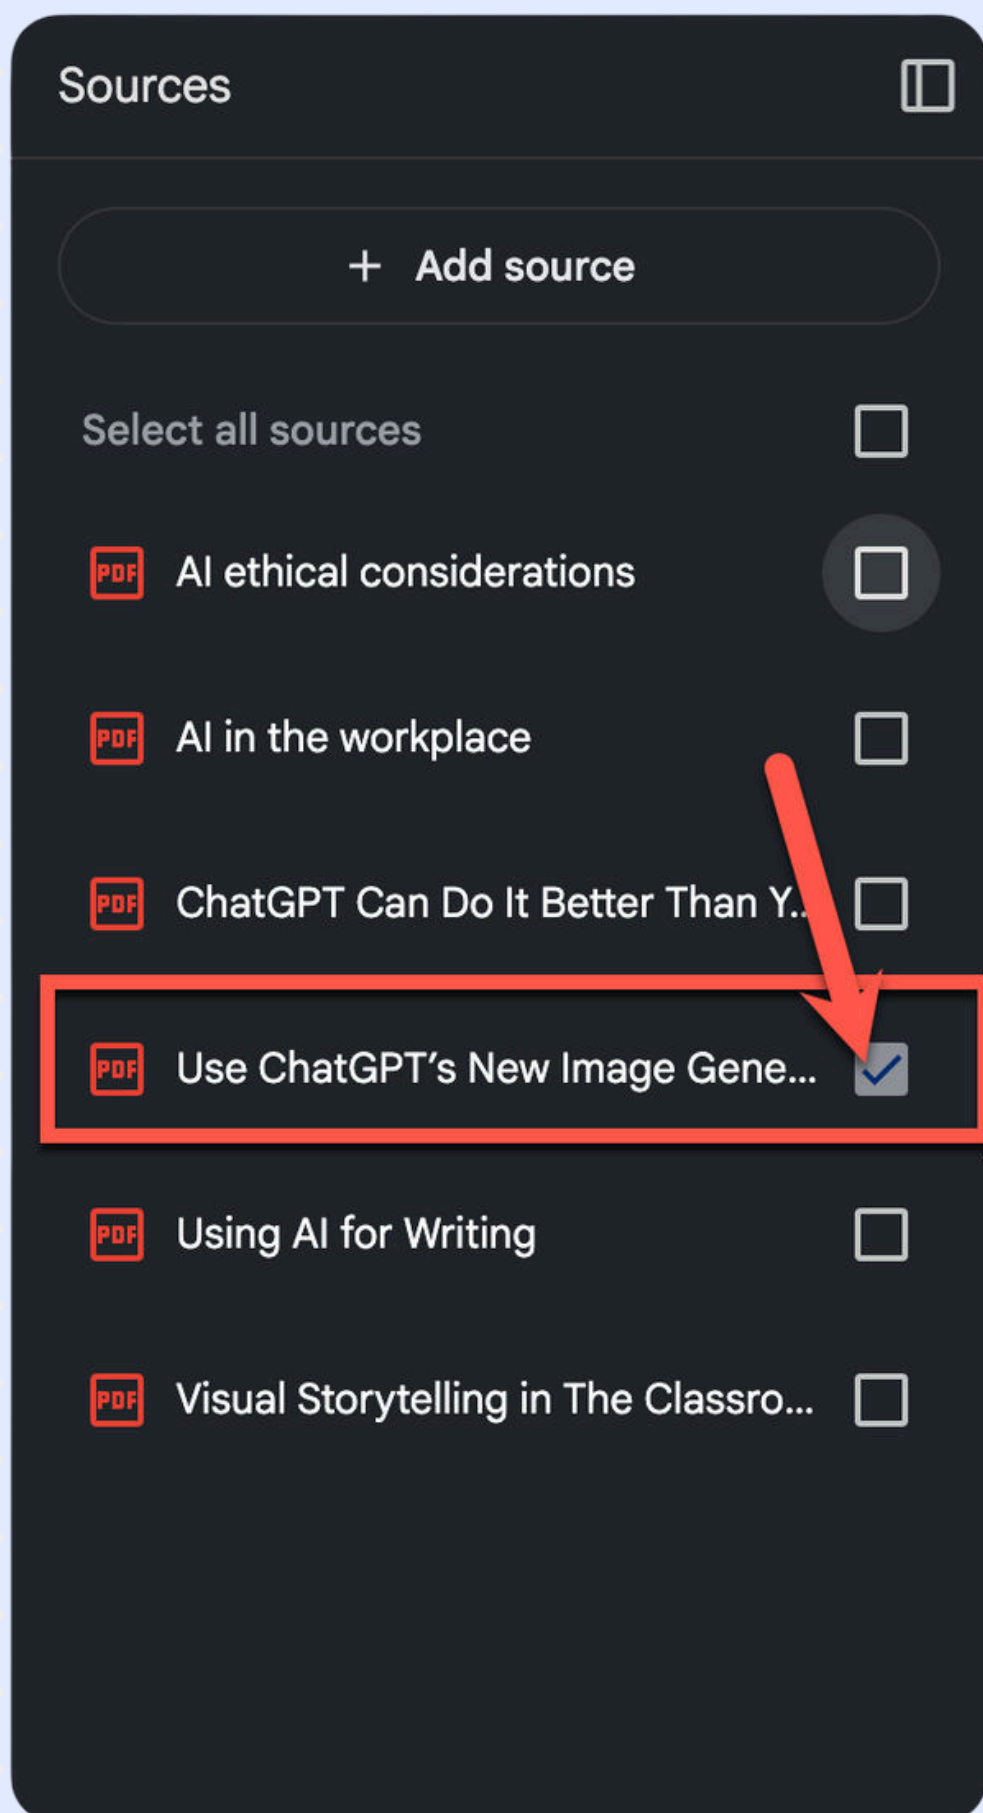

- Upload only 10-15 documents per notebook for best results.
- Avoid overwhelming the AI.

Tip #3

Focus Your Queries

- Interact with one paper at a time.
- Use the built-in chat to ask detailed questions.

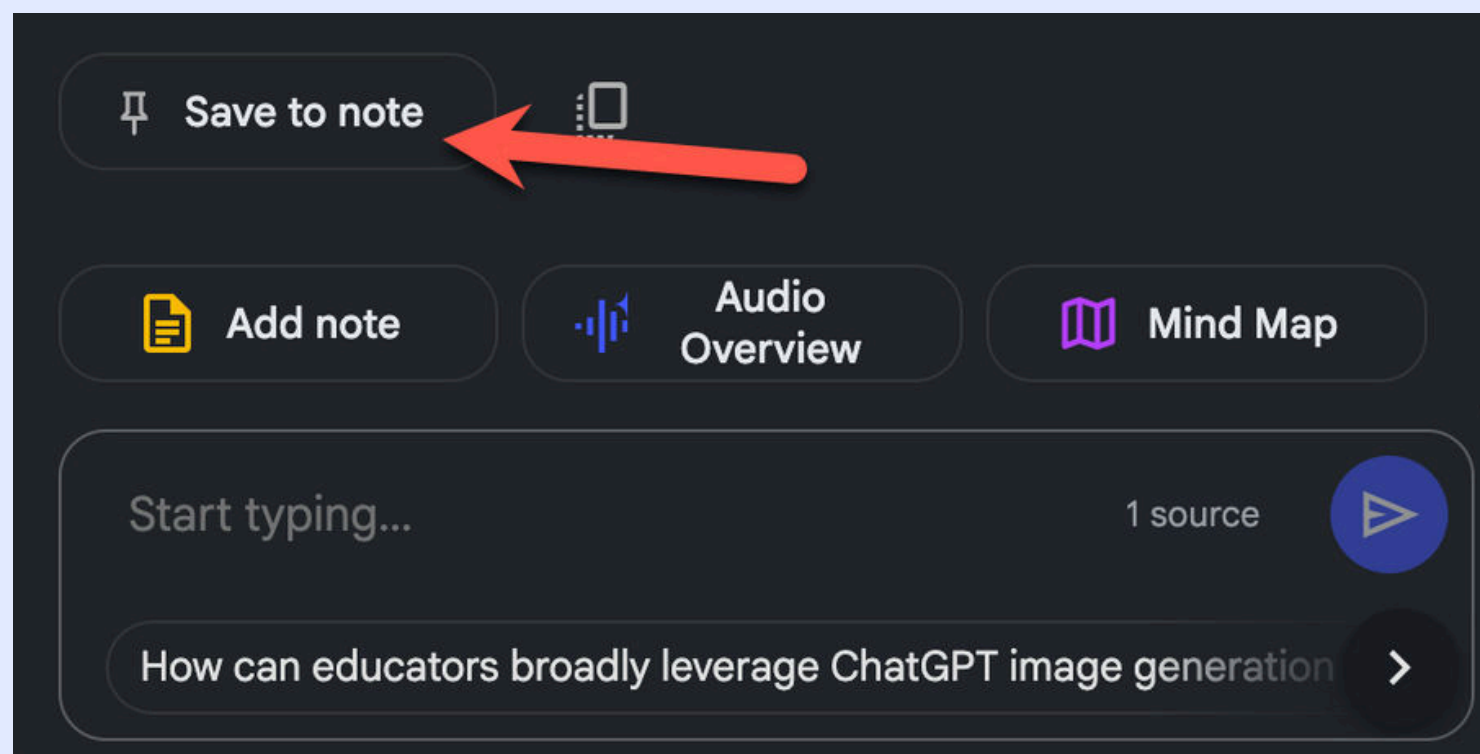

Tip #4

Save Your Chats

- Use the "Save to Note" feature.
- Easily revisit insights and questions later.

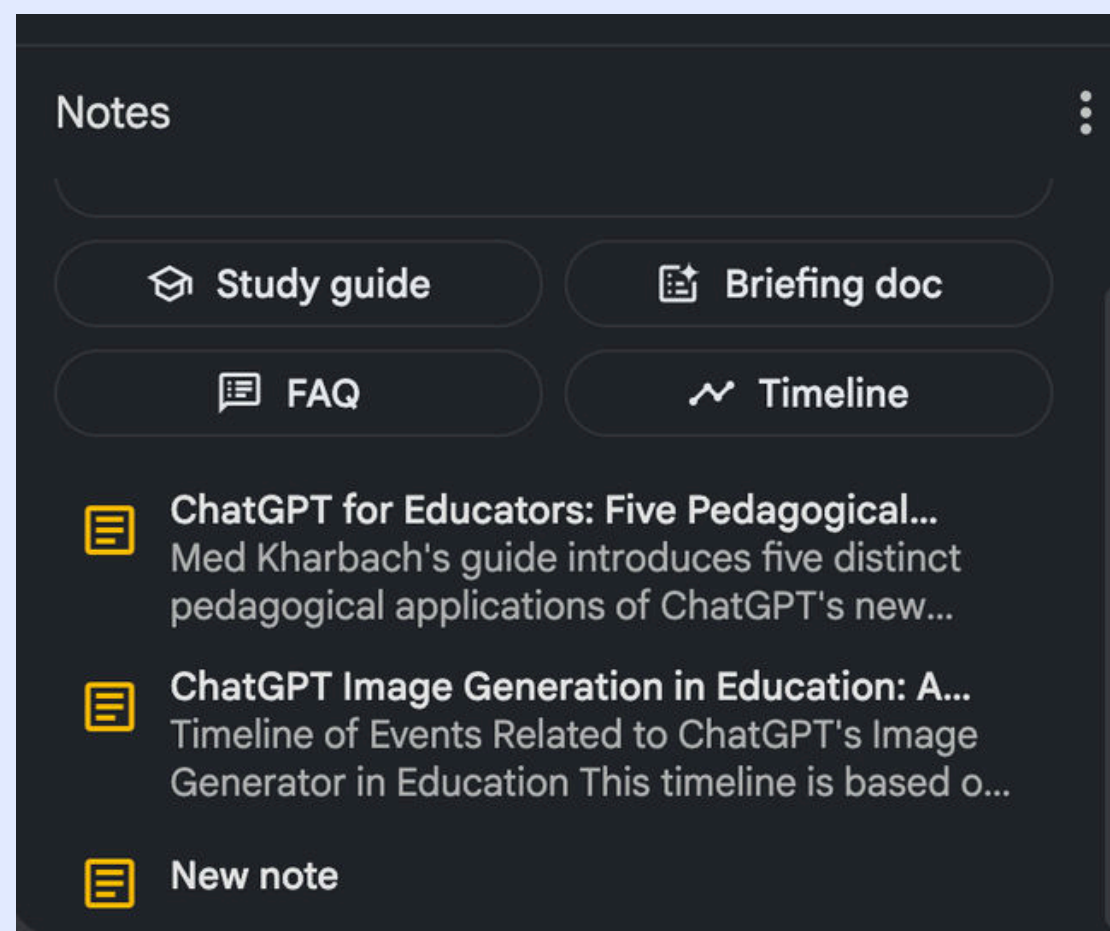

Tip #5

Export Notes

- Move notes to your personal system (Obsidian, Notion).
- Organize notes by research sections or themes.

Tip #6

Quick Citation Check

- Forgot who said what?
- Query all documents at once to instantly locate citations.

"Identify the author and source of this idea: [insert your idea here]."

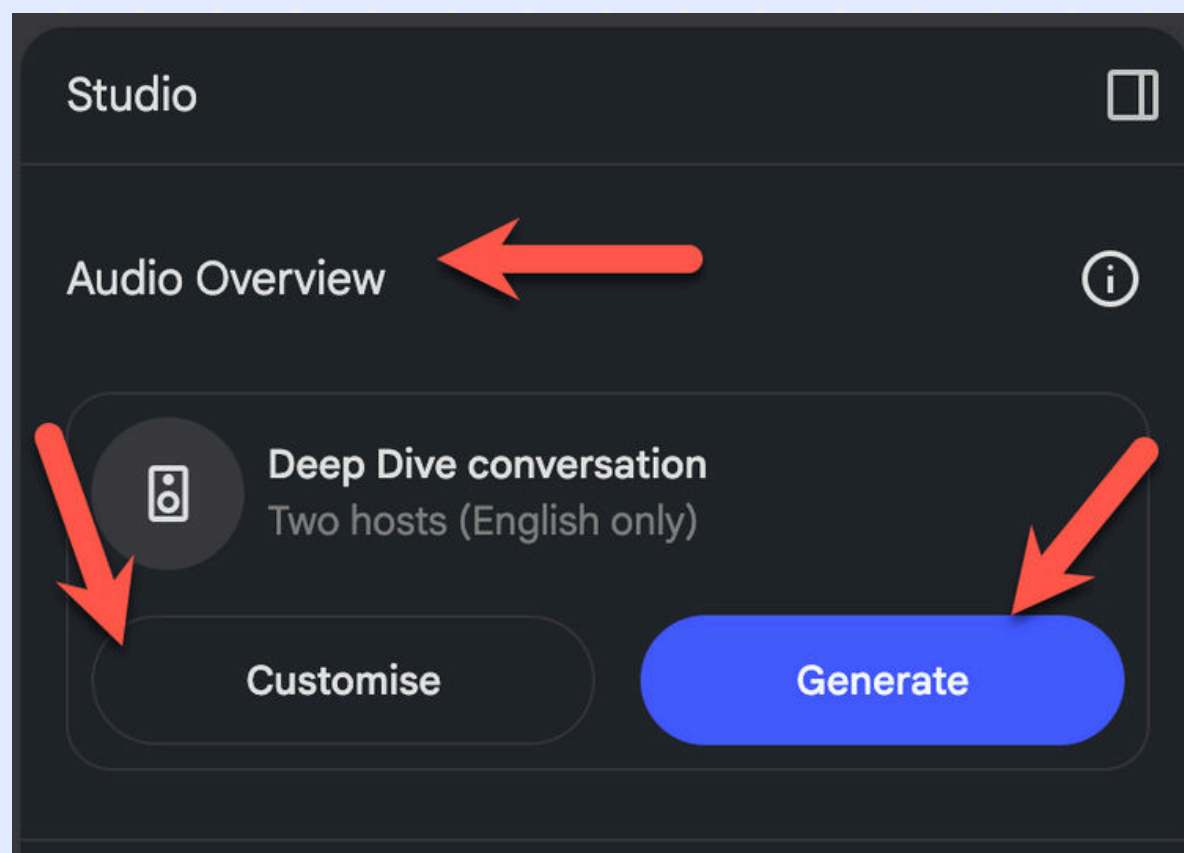

Tip #7

Audio Overview

- Ideal for casual or supplementary reading.
- Listen while multitasking (driving, exercising).

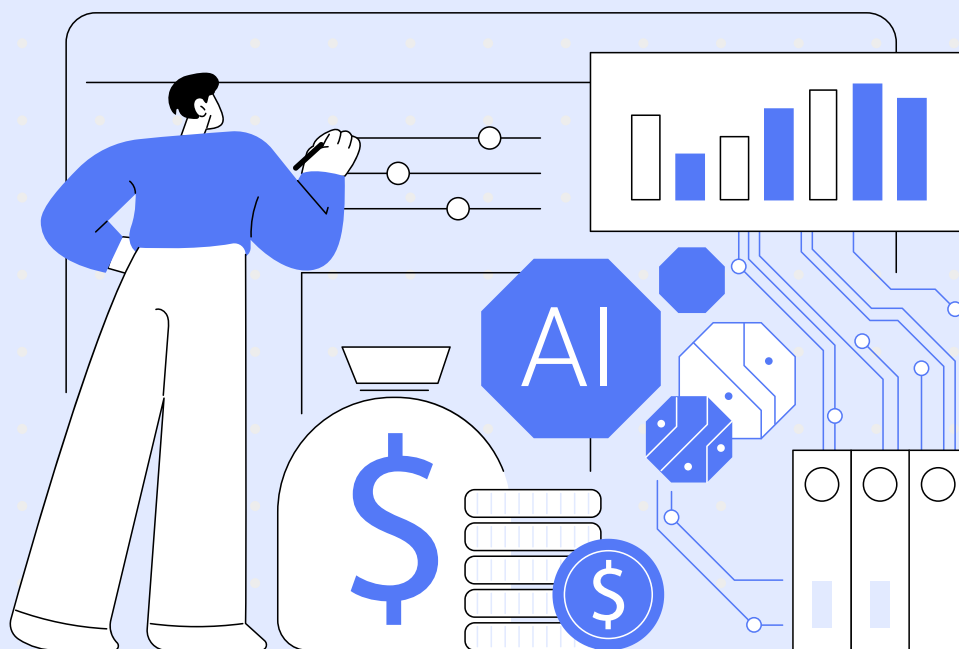

Tip #8

Stay Vigilant

- AI can make mistakes ("hallucinations").
- Always double-check citations, quotes, and facts.

Tip #9

Ethical Reminder

- Be cautious with copyrighted material.
- Delete sensitive documents once finished.
